ART UNIT PAPER NUMBER

1615

SHORTENED STATUTORY PERIOD OF RESPONSE	MAIL DATE	DELIVERY MODE
3 MONTHS	02/08/2007	PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

If NO period for reply is specified above, the maximum statutory period will apply and will expire 6 MONTHS from the mailing date of this communication.

Office Action Summary	Application No. 10/645,079	Applicant(s) HASENOEHRL ET AL.	
	Examiner Hasan S. Ahmed	Art Unit 1615	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 November 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 and 3-25 is/are pending in the application.
- 4a) Of the above claim(s) 14-25 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1 and 3 -13 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Art Unit: 1615

DETAILED ACTION

1. Receipt is acknowledged of Applicants': (a) amendment/response; and (2) terminal disclaimer, both were filed on 17 November 2006.
2. The amendment filed on 17 November 2006 has been entered.
3. The 35 USC 112 rejections of the previous Office action (mail date 24 August 2006) are withdrawn in light of the amendment.
4. The 35 USC 102 rejection of the previous Office action (mail date 24 August 2006) is withdrawn in light of the amendment.
5. The obviousness-type double patenting rejections with respect to the copending applications are withdrawn in light of the terminal disclaimer (see below).

* * * * *

Terminal Disclaimer

The terminal disclaimer filed on 17 November 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on application numbers 10/645,080 and 10/949,833 has been reviewed and is accepted. The terminal disclaimer has been recorded.

* * * * *

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 1615

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

*

1. Claims 1-5 and 10-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Slavtcheff, *et. al.* in view of Bries, *et. al.* (U.S. Patent No. 5,110,843).

Slavtcheff, *et. al.* disclose a layered effervescent article for cleansing body surfaces (see col. 2, lines 10-30).

The disclosed article is comprised of:

- the effervescent composition comprising solid alkaline and acidic materials of instant claim 1; and
- the liquid-permeable laminate comprising a first web (as defined in paragraph 0028 of the instant specification) layer and a second web layer with said effervescent composition present between the first and second layers (see col. 2, line 67 – col. 3, lines 9, 32 and 46-56; figure 2).

The disclosed article may further comprise:

- an anionic lathering surfactant (instant claim 3), such as an isethionate, a taurate or a sulfate (instant claim 5). See col. 4, line 65 – col. 5, line 8.
- an effervescing composition comprising:
 - 1-80% of an alkaline material such as, *inter alia*, azides (instant claim 10) and sodium bicarbonate (instant claim 11) (see col. 4, lines 20-25);and

Art Unit: 1615

- 1-80% of an acidic material such as, *inter alia*, toluene sulfonic acid (instant claim 12) and citric acid (instant claim 13) (see col. 4, lines 29-53).

Slavtcheff, *et. al.* explain that combining the disclosed agents into one cleansing article is beneficial because it forms a convenient delivery package (see col. 1, lines 14-20).

The Slavtcheff, *et. al.* reference differs from the instant claims in that it does not teach a surfactant layer distributed over the first web layer (see instant claim 2).

Bries, *et. al.* teach a cleaning article comprising multiple layers (see col. 5, lines 23-56).

The disclosed article may contain a layer comprising a cleaner or detergent (see col. 5, lines 49-52).

It would have been obvious to a person of ordinary skill in the art at the time the invention was made to add a surfactant to the top layer of a multi-layer personal cleansing article. One of ordinary skill in the art at the time the invention was made would have been motivated to add surfactant to the cleansing article because it forms a convenient delivery package, as explained by Slavtcheff, *et. al.*

*

2. Claims 6, 7, and 9 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Slavtcheff, *et. al.*

Slavtcheff, *et. al.* disclose a layered effervescent article for cleansing body surfaces (see above).

Art Unit: 1615

The Slavtcheff, *et. al.* reference differs from the instant case in that it does not disclose the bonding agents of instant claim 7.

However, the reference teaches that the layers of the disclosed article are heat fused (instant claim 6) at the outer perimeter (instant claim 9). See col. 3, lines 48-49.

Thus, burden shifts to Applicants to show an unexpected result with use of the bonding agents recited in instant claim 7.

*

3. Claim 8 remains rejected under 35 U.S.C. 103(a) as being unpatentable over Slavtcheff, *et. al.* in view of Bries, *et. al.*

Slavtcheff, *et. al.* disclose a layered effervescent article for cleansing body surfaces (see above).

The Slavtcheff, *et. al.* reference differs from the instant case in that it does not teach the third layer to the second layer of instant claim 8.

Bries, *et. al.* teach a cleaning article comprising multiple layers (see col. 5, lines 23-40).

Bries, *et. al.* explain that multiple layers are beneficial for "...support, reinforcement, strength, abrasiveness, etc." See col. 5, lines 49-52.

It would have been obvious to a person of ordinary skill in the art at the time the invention was made to add a third layer to the second layer of the claimed article. One of ordinary skill in the art at the time the invention was made would have been motivated to add the third layer to the cleansing article for, e.g., support, reinforcement, strength, and abrasiveness, as explained by Slavtcheff, *et. al.*

Art Unit: 1615

* * * * *

Response to Arguments

Applicant's arguments filed on 17 November 2006 have been fully considered but they are not persuasive.

Applicants argue that there is no motivation for one skilled in the art to modify the Slavtcheff and Bries references to create the article recited in amended instant claim 1 since Slavtcheff does not teach separation of the effervescent composition and the lathering surfactant, and Bries only teaches a detergent, not an effervescent composition. See remarks, page 9.

Examiner respectfully disagrees. Instant claim 1 recites the open language "comprises." While the claim directs the certain compositions on certain layers, the open construction of the claim precludes neither the effervescent composition, nor the lathering surfactant from any of the layers. As such, examiner respectfully submits that sufficient motivation exists to modify the Slavtcheff and Bries references to create the article recited in amended instant claim 1, as claimed.

* * * * *

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

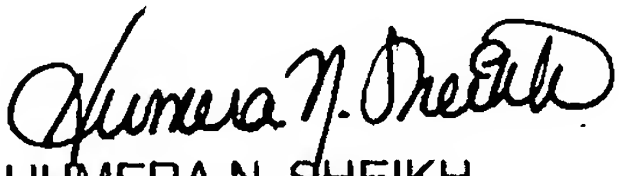

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hasan S. Ahmed whose telephone number is 571-272-4792. The examiner can normally be reached on 9am - 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Woodward can be reached on 571-272-8373. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
